DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The Standard Oil Company of Texas, A Division of California Oil Company hereby gives notice of intention to drill the subject well to a total depth of approximately 7300 feet with rotary tools. A 10 1/2" hole will be drilled to approximately 675 feet where 9-5/8" O.D., 30, 3-95, SSSS, new casing will be cemented with cement to surface. An 8-5/8" hole will be drilled to approximately 4500 feet. Should hole trouble be encountered, an intermediate string of new casing will be cemented at approximately 4500' with approximately 500 cu. cement. A 6-5/8" or 7-7/8" hole will be drilled to total depth. If commercial production is indicated by 1/2" O.D., 9-5/8" & 11-5/8", 3-95, SSSS, new casing will be cemented at total depth with approximately 300 cu. cement. Completion procedure to follow as warranted.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
