Gentlemen:

We are forwarding you all information previously sent to USGS in Farmington on Navajo Tribal 22-11-1.

Current status of Navajo Tribal 22-11-1 is the same as stated in our supplementary well history report (9-331b) dated June 12, 1964.

We would like to defer permanent abandonment until completing the Geological and Engineering studies currently in progress.

Navajo Tribal 22-11-1 is still safely cased and controlled, and is periodically checked by field personnel. No hazard will be created by deferring abandonment and we appreciate your consideration in the matter.

If additional information is required, please advise.

Yours very truly,

D. T. Magee / EUM
