120 East Chaco  
~~XXXXXXXXXXXX~~

September 7, 1956

Mr. L.E. White  
723 North Plumer Avenue  
Tucson, Arizona

Dear Mr. White:

In anser to your letter of August 30, 1956 I submit the following:

The well to which you refer is called the El Paso Natural Gas Company #3-B Storey. It was completed July 26, 1956 with an Initial Production test of 3720 MCFPD and Shut-in casing pressure of 1077# after 7 days shut-in. It is a Mesaverde producer in the Blanco Mesaverde Pool and has not yet been connected to a pipeline.

If you need further information on the above or other matters please feel free to contact us any time.

Yours very truly

Secretary

August 30, 1956.

New Mexico Oil & Gas Commission,  
Aztec, New Mexico.

Attention Mrs. Kathleen Simmons

Dear Mrs. Simmons:

Mrs. White and I own the East half of the North West Quarter of Section 5 Two. 30 N. Rge. 11 E., San Juan County, N. M. and this 80 acres was included in pooled unit on which, we understand, the Stacey B Well No. 3 was recently completed.

If it is not out of order for you to do so would like very much to know the date the well was brought in, the tested production, and whether the well has been connected to a pipe-line and brought into production.

We understand the El Paso Natural Gas Company brought the well in and that the Southern Union Gas Company participates with the El Paso Natural Gas Company in the pooled unit.

Any information you may be at liberty to give us will be greatly appreciated, I assure you.

Yours very truly,

  
L. E. White.
