(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Moved location 100' north due to the previously filed location being on 16" oil line right of way to southeast New Mexico.

Old location: 2475' fsl, 165' fwl

New location: 2575' fsl, 165' fwl

Contacted Emery Arnold, Engineer OCC Aztec, State of New Mexico and received verbal approval due to terrian obstacle. Contacted offset operator-Kennedy. New location plat attached. Changed location 10-30-67.

TITLE

DATE

CONDITIONS OF APPROVAL, IF ANY:

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

**NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACERAGE DEDICATION PLAT**

All distances must be from the outer boundaries of the Section

Owner **RIJAN OIL COMPANY** **NAVAJO** **11-20-0603-742** **4**
 Corner **L** Section **31** Township **30 NORTH** Range **16 WEST** County **SAN JUAN**
 Acres for this Section of Well **2575** Feet from the **SOUTH** **165** Feet from the **WEST** **165**
 Acres for this Well **5085** **Dakota** **Slickcreek Extension** **40** Acres **40**

Outline the acreage, well located in the subject well block, shown on the plat below

2. If more than one lease is related to the well, outline each and state the ownership thereof, both as to working interest and royalty.

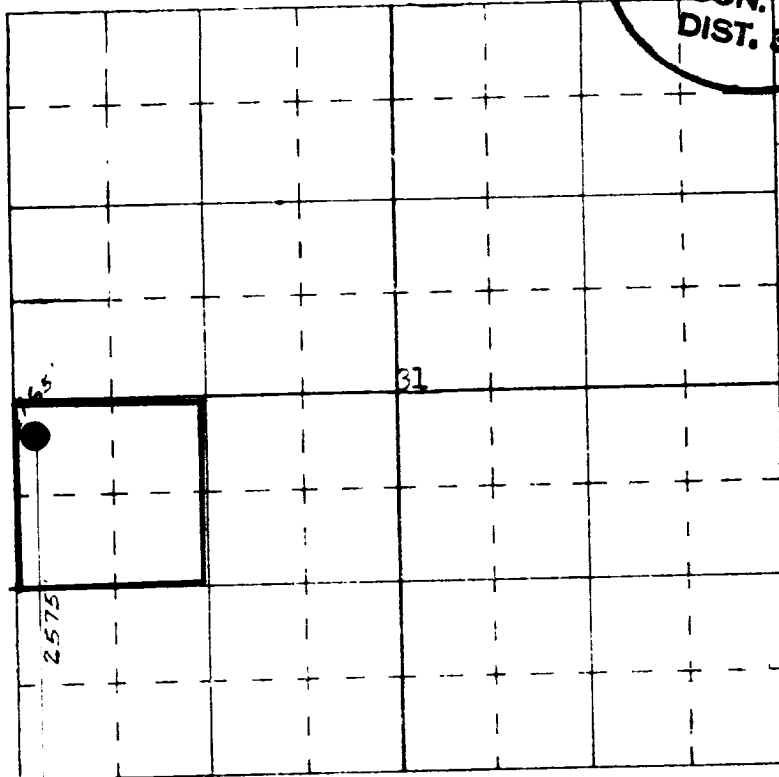

One lease—All Sec. 31

3. If more than one lease of the same ownership is related to the well, have the interests of all owners been consolidated by communitization, unitization, forced pooling, etc?

Yes ☐ No ☒ If answer is yes, state in the structure **One owner only.**

If answer is yes, state the owners and tract description, which have actually consolidated. (Use reverse side of this form if needed.)

No oil well will be drilled to the well until all interests have been consolidated by communitization, unitization, forced pooling, or otherwise, or until a non-stipulated unit, eliminating all interests, has been approved by the Commission.
