Gentlemen:

I have examined the application dated 2-5-83
for the Overland Oil & Gas Corp King Kong #5 L-4-30N-17W
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

Approve, if operator will furnish written proof that
the BIA requested + approved the 2 3/8" tubing to be
cemented in the well.

Yours truly,

Jeff A. Edmister
