17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Reference:3100 (016) SF-078385-A

1/9/85 Due to current climate and well location conditions, a six month extension on performing the work to permanently plug and abandon this well is requested. The well location is on a peninsula in a large feeder wash to Gobernador Canyon. The location is overgrown with heavy brush and road access is non existent.

Tentatively the plan to permanently plug and abandon well is to provide a conductor pipe of 2 3/8" EUE tubing from the top of the 3 1/2" drill pipe to surface. Perforate the 3 1/2" drill pipe @250' and cement down the 2 3/8" tubing and 3 1/2" drill pipe and circulate cement back to surface filling the annulus between the drill pipe and 9 5/8" surface casing. Conditions of well may require revisions to this procedure.

Extended until July 14, 1985.

18. I hereby certify that the foregoing is true and correct
