11. The above is a simplified description of the operations of the stock market. It is not intended to give a complete picture of the market, but to give a general idea of the way it works. It will be immediately evident that the stock market is a very complex and intricate system, and that it is not possible to understand it without a thorough knowledge of the principles of finance and economics. It is also evident that the stock market is a very important part of the economy, and that it plays a major role in the distribution of wealth and the creation of jobs. Therefore, it is essential that we have a clear understanding of the way it works, and that we are able to make informed decisions about whether to invest in the stock market or not.

United To P & A.

Spotted 7 7/8" hole 5/5/75. Set 30' - 5 1/2" casing, cement with 5 sacks cement. Drilled 4 3/4" hole to TD 1065'. Will install dry hole marker and abandon hole.

Flagging: Cement from 1065' to 915' with 10 sacks cement.
Cement from 515' to 415' with 10 sacks cement.
Top plug and set dry hole marker.

Distance, Sailing Top:	4650'
Distance Top:	1000'
10:	1000'

1. The first step is to identify the problem or question that needs to be solved. This involves understanding the context and the specific requirements of the task.
