13. Describe Proposed or Completed Operations

A workover was concluded 9-12-91 to replace a bad downhole plunger pump. The rods parted and attempts to fish failed. The tubing was pulled in order to recover the rods and pump. The rods and tubing were rerun with the tubing landed @ 5774'. The well was put back into production.

A notice of intent was not filed prior to moving on location as it was not intended to change the wellbore configuration.
