17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The 2 7/8" tubing which is cemented in an open hole of 4 3/4" dia. has a deviation near the bottom of the hole estimated at 100' above T.D. It is the intention of the operator to raise 1 1/2" slim hole off the bottom approximately 100' from the bottom with a mud anchor and gas anchor below. We will place a pump jack on well and return it to production. These operations will be completed within 30 days depending on the weather & field conditions.
