(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Lost tbg. in hole while trying to complete.

Able to fish out tbg down to 3096'.

We propose to correct this problem as follows:

1. Set cement retainer @ 2900'. Squeeze below retainer with sufficient volume to plug hole. Spot 2 sacks above retainer.
2. Cut a window in 7" casing above 4-1/2" liner, set a whipstock, redrill this well to original TD and run another 4-1/2" liner through the sidetrack.
3. Complete as originally planned through the sidetracked hole.

18. I hereby certify that the foregoing is true and correct
