Dear Mr. Myers:

Form 9-331 for the subject well indicates two groups of perforations still open separated by a packer. These are from 1144' to 1160' and from 3282' to 3288' with the packer set at 3239'.

This constitutes a dual completion as set out in Rule 112-A.

Conduct and submit in triplicate a Packer-Leakage Test and obtain an order approving the multiple completion.

Sample forms are enclosed.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick  
Supervisor, District #3
