Re: State Deliverability Retest Request
San Juan Basin, New Mexico

Frank:

Below is a list of Tenneco-operated wells which have recently been converted to plungerlift or compression as indicated. Because the wells' current capacities are much greater than the 1986 state deliverabilities, Tenneco requests that they be approved for retests.

<u>Wellname</u>	<u>1986 State Deliv. (MCFD)</u>	<u>Current Capacity (MCFD)</u>	<u>Increase (MCFD)</u>	<u>Reason for Increase (Installation)</u>
Florance 10 MV	24	350	326	Plunger Lift
Florance 10A MV	82	390	308	Plunger Lift
Gartner LS 4A MV	202	425	223	Plunger Lift

Questions regarding this request should be addressed to me at (303) 740-2555.

Very truly yours,

TENNECO OIL COMPANY
