Re: Gartner A #4A I-33-30N-08W 30-045-22418

Dear Mr. Cardona:

Per our conversation on Wednesday, March 5, 1997, I am verifying that the Gartner A #4A is not being retested for Packer Leakage due to a rig moving on location to commingle this well.

If you need further information, please call me at 326-9453.

Thank You,

Paula Mize
Field Technologist
