Dear Bill:

The location of the subject well appears to be non-standard, because of the shape of the section as shown on the attached sketch.

If the location is standard, please cause a plat showing the position of the subdivision lines within the section.

If the location is non-standard, please either cause the well to be moved or obtain approval of the location.

If there are questions, please call.

Yours very truly,

A. R. Kendrick
Supervisor, District #3
