Re: Application for non-standard
location, Northeast Blanco
Unit Well No. 66A

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval for an unorthodox well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 66A, an infill well, located 2100' F/N - 300' F/W, E-31-31N-7W, San Juan County, New Mexico.

The offset spacing unit subject application are all within the bounds of the Northeast Blanco Unit and should not present a drainage problem to any offset operator to the unit. The proration unit dedicated to Well No. 66A was approved by Case No. 1006; Order No. 750-A.

Due to extreme topographical conditions, we believe we have surveyed this well site in the only logical location.

Yours very truly,

BLACKWOOD & NICHOLS CO., LTD.
