Attention: Mr. A. R. Kendrick

Amendment
Administrative Order NSL-1016

Gentlemen:

Reference is made to your letter of April 25, 1980, requesting that NSL-1016 giving approval of a non-standard location for your Mary Ackroyd Well No. 1 in the Aztec-Pictured Cliffs Pool be amended to include the Farmington formation also.

By authority granted me under the provisions of Rule 104 F of the Division Rules and Regulations, the above-described unorthodox location is hereby approved to include the Farmington formation.

Sincerely,

JOE D. RAMEY,
Director

JDR/RLS/dr

cc: Oil Conservation Division - Aztec
Oil & Gas Engineering Committee - Hobbs
