RE: Application for Non-Standard Location
Manana Gas, Inc. Mary Ackroyd #1
1810' FSL, 1330' FEL, Section 18, T30N, R11W,
San Juan County, New Mexico
Aztec-Farmington Pool

Dear Mr. Ramey:

We hereby request an administrative order approving the non-standard location of the subject well in the Farmington Formation due to topographical conditions.

Administrative Order NSL-1016 granted approval of this location for a Pictured Cliffs well on March 27, 1979.

This well did not penetrate the Pictured Cliffs Formation due to mechanical problems. It has now been completed as a Farmington Gas well.

Enclosed are copies of the original application for your convenience.

Copies of this application are being mailed to all offset operators shown on the Pictured Cliffs ownership plat by Certified Mail this date. There are no offset Farmington wells.

Very truly yours,

Manana Gas, Inc.

APPLICATION FOR ADMINISTRATIVE APPROVAL - UNORTHODOX LOCATION
Aztec Pictured Cliffs Gas Field 1810'FSL/1330'FEL
Section 18-T30N-R11W, San Juan County, New Mexico

Gentlemen:

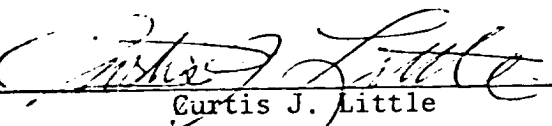

Enclosed are triplicate plats showing ownership of all lessees and Pictured Cliffs wells offsetting our proration unit and a survey plat of the proposed location.

Approval for this unorthodox location is requested because: (1) After many months of negotiation with Mr. Joe B. Gillentine, owner of the E/2 SE/4 surface rights, a legal location in the NESE has been abandoned with our belief as to the impossibility of ever gaining access to the drillsite, and (2) Mr. Sherman Emery's land upon which the proposed drillsite is located is all irrigated and cultivated, Mr. Emery desires to to have the wellhead NOT more than 10 feet into his field from his fenceline road; therefore, the necessity of drilling 1330' FEL rather than the legal 1450'FEL.

By copy of this letter we request all offsetting owners notify you of their approval or disapproval of this request.

Very truly yours,

MANANA GAS, INC.
