Gentlemen:

I have examined the application dated 11-21-79
for the Conoco Production Co. Federal Gas Co. E# 1 E
Operator Lease and Well No. Unit, S-T-R
I-30-36N-12W
and my recommendations are as follows:

Approve

Yours very truly,

AK Landmark

November 21, 1979

Joe D. Ramey, Director (3)
Department of Energy and Minerals
Oil Conservation Division
P. O. Box 2088
Santa Fe, NM 87501

File: HAS-267-986.511

Dear Mr. Ramey:

Application for Right to Produce at an
Unorthodox Well Location
Federal Gas Com "E" No. 1-E, Basin Dakota Infill Well
SE/4 of Section 30-T30N-R12W
San Juan County, New Mexico

By this verified application submitted in triplicate, Amoco requests approval to produce gas from the Basin Dakota formation at the captioned well, a Basin Dakota infill well, at the unorthodox location of 2,020' FSL and 670' FEL of Section 30, T30N, R12W. Permissible location for a Basin Dakota infill well must be at least 790' from the outer boundary of the undrilled quarter section of the 320 acre proration unit, and at least 130' from any quarter quarter section line or subdivision inner boundary.

The reason for this unorthodox location within the city limits of Farmington is to avoid locating the well on the golf course of the San Juan Country Club (refer to the attached location plat).

By the attached Verification and Affidavit that is a part of this application, all affected offset operators of wells shown on the map enclosed are being notified by certified mail of this unorthodox location request. In the absence of an objection from an affected offset operator within twenty (20) days after you have received this application, and provided you have no objection to this application,

Joe D. Ramey
November 21, 1979
Page Two

we shall appreciate receiving your administrative approval of this letter application. Of course, if there is an objection, please set the matter for hearing, after giving proper notice.

Respectfully submitted,

R. B. Giles
