17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is intended to drill and complete the subject well in accordance with the original APD approved February 6, 1980, but moved to a new location as described above.

This APD was approved for the San Juan 32-9 Unit #14A. - 910'S, 825'E, Sec. 9, 31N, 9W.
San Juan County, New Mexico

NOTE: It has become necessary to skid the rig to this new location because after drilling to a depth of 2294' a trip was made for a new bit. While going in the hole the 8-3/4" bit came off the drill string and became lodged in the hole at 598'. During subsequent fishing operations it was found the bit could not be recovered nor moved down the hole.
