NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

I, Robert Griffiee, being of lawful age and having full  
*Name of party making report*  
knowledge of the facts hereinbelow set out do state:

That I am employed by El Paso Natural Gas Co. in the capacity of  
Petroleum Engineer, that on March 23rd, 1981

I personally supervised the setting of a Baker Model G-22 Seal Assembly  
*Make & type of packer*  
in EPNG Sunray D

*Operator of well* 1A *Lease name* Aztec P.C. & Blanco MV  
Well no. 1A located in the Ext. field,

San Juan county, state of New Mexico, at a subsurface depth of

3140' feet, said depth measurement having been furnished me by

Pipe Record;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
