OCT 11 1994

Mr. Jerry Hoover  
Conoco Incorporated  
10 Desta Drive, Suite 100W  
Midland, TX 79705-4500

Dear Mr. Hoover:

Conoco Incorporated submitted an application to downhole commingle production from the Blanco Mesaverde Pool and the Basin Dakota Pool in the following well:

15E Bruington  
1650' FNL, 1740' FWL  
Sec. 15, T. 30 N., R. 11 W.  
San Juan County, New Mexico

The referenced well was completed in January 1982 as a multiple completion in both zones. Current reservoir characteristics and economic conditions support commingling production to extend the economic life of the well and thus increase recoverable reserves from both formations. Downhole commingling of the two formations will not adversely affect Federal royalties.

Your application is hereby approved effective September 1, 1994. The following allocation factors were calculated from actual production for the entire year of 1993 and are to be used.

|                  | <u>OIL</u> | <u>GAS</u> |
|------------------|------------|------------|
| Blanco Mesaverde | 81%        | 56%        |
| Basin Dakota     | 19%        | 44%        |

Should subsequent testing of the well indicate that Dakota production changes when the production packer is removed from the wellbore, you must submit revised allocation factors and supporting data to this office for approval.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

If you have any questions regarding this approval, please contact Ray Hager at (505) 599-6366.

Sincerely,

/s/ Duane Spencer

Duane Spencer
