13. Describe Proposed or Completed Operations

Meridian Oil Inc. respectfully requests a six month extension of the subject well in order to evaluate dewatering efforts of the Fruitland Coal in the nearby vicinity. During July, pumping units and plunger lift systems were installed on several Fruitland Coal wells in the area in an attempt to dewater the coals and return the wells to an economic state of production. After the six month evaluation period, plans will be submitted to either recompleate the Fruitland Coal or plug and abandon the subject well.
