13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We are currently in the process of acquiring R-O-W and tying in our Five of Diamonds #90 well. This well will tie into that system. Flow tests show enough volume to return this well to production. The pipeline connection and facilities should be completed by June 1, 1997.
