Attention: Mr. DeLasso Loos

Administrative Order NSL-1310

Gentlemen:

Reference is made to your application for a non-standard location for your Northeast Blanco Unit Well No. 68 to be located 790 feet from the North line and 1292 feet from the East line of Section 35, Township 31 North, Range 7 West, NMPM, Blanco Mesaverde Pool, San Juan County, New Mexico.

By authority granted me under the provisions of Rule 104 F of the Division Rules and Regulations, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY,  
Director

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 68, a development well, located 790' F/NL - 1292' F/EL, A-35-31N-7W, San Juan County, New Mexico.

This location is on Federal Royalty, and under the surface control of the Water and Power Resources Service and the Bureau of Land Management, who has witnessed this proposed well site. It is located on a small flat mesa with steep cliffs to the West, South and East down to the Navajo Lake, and without unnecessary expense is the most logical well site agreeable to all parties.

All offset acreage is within the bounds of the Northeast Blanco Unit, except the Southeast corner which is operated by El Paso Natural Gas Company. El Paso Natural Gas Co. will be notified by separate letter of our intent to drill Well No. 68.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.
