17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Operator requests a six-month extension of the temporary abandonment of the Pictured Cliffs formation below a retrievable bridge plug at 1523'.

This extension is needed because we have been unable to test the Fruitland Formation in the same well bore due to the fact that we have been unable to date to find a gas market for the gas from this well. None of the major gas purchasers in the area are currently contracting for new gas, but negotiations are still ongoing with the City of Farmington for the sale of gas from this well.
