17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Operator requests a six-month extension of the temporary abandonment of the Pictured Cliffs Formation below a retrievable bridge plug at 1523'.

Initial sales of gas from this well began September 21, 1985.

This extension is needed so that we may test the Fruitland Formation in the same well bore to determine working formation pressures. At the conclusion of said testing period operator will be in a position to determine whether an application for approval to commingle the Pictured Cliff and Fruitland Formations of the subject well is feasible.
