17. FOR PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The completion reports dated 5-15-84 and 5-16-84 indicate that there are two strings of tubing in the hole for the subject. This is incorrect as the well is commingled and there is only one string of tubing set at 6837'.
