13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Amoco Production Company has reviewed the Dakota production and recompletion potential in this wellbore and have concluded that compression would not substantially increase the Dakota production and the Mesaverde reservoir in this area is being adequately drained by offset wells. It is our intention to P&A the wellbore. P&A procedures are being prepared at this time and will be forwarded to your office upon completion.
