Re: Application for approval of Unorthodox
Location
Barrett #7
1635' FSL, 715' FEL
Sec. 19, T31N, R9W
San Juan County, New Mexico

Gentlemen:

Tenneco Oil Company plans to drill the referenced well during the 2nd quarter of 1987. Attached in duplicate (to each office) is a well location plat C-102 and an ownership plat identifying offset operators.

The proposed site of the Barrett #7 is staked in an unorthodox location due to geological considerations and topographical features. The enclosed C-102 identifies the topography that contributed to the locations current staking (example: ridges, pipeline, existing well, service road and a large drainage area). Because of these conditions, this is the only feasible location.

Tenneco Oil Company holds the surrounding acreage on this well, please disregard the 20 day period for offset operators to send a waiver of objection.

Pursuant to authority of Rule 104-E we respectfully request your approval of an exemption to the standard well location requirements.

Very truly yours,

TENNECO OIL COMPANY
