13. Describe Proposed or Completed Operations

For the San Juan 32-9 Unit #266, Burlington Resources respectfully requests a six-month shut-in extension. During evaluation for the previously planned work it was realized that this well may substantially benefit from a lower line pressure offered by connecting it to the El Paso Field Services system. Although a clean-out may still be necessary at some point, Burlington would prefer to first attempt a return to production via a different pipeline connection. If this does not work, then a clean-out would still be in order. Negotiation with EPFS and subsequent work is anticipated to take up to six months.

THIS APPROVAL EXPIRES JUN 15 2002

14. I hereby certify that the foregoing is true and correct.
