13. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Devon Energy proposes to move in a coal cavitation rig and remove the uncemented, existing 5-1/2" liner. The Fruitland Coal open hole interval will undergo a re-cavitation and cleanout process. The well will not be deepened. At the end of the re-cavitation process, a 5-1/2" pre-drilled liner will be installed across the open hole interval and set in the 7" casing with a liner hanger assembly.

14. I hereby certify that the foregoing is true and correct.
