Oil Conservation Commission
Santa Fe, New Mexico

Att: Gloria

Dear Gloria:

We are writing regarding the C-103 which you have on the #2 Corscott in the NW/4 Sec. 25-30N-12W. The bond has never been approved on this well and the Notice of Intention to Drill was never approved. This is one of the wells which Mr. Umbarger started without having a Notice of Intention to Drill approved by this office. His operation was subsequently shut down but the Cpl03e was submitted showing where they set surface pipe before stopping operations. Due to the fact that the Notice of Intention to Drill had not been approved I should not have approved the C-103 on surface pipe.

The present status of the well is as shown on the C-103 and Mr. Umbarger will not be allowed to continue this operation until his bond is approved and the C-101 is approved. You might put a note in your file on this well so that you will know what the situation is.

Yours very truly,

THUS 4* 1954

Dear Sirs:

Dear Sirs:

We are writing regarding the C-101 which you have on the
#2 Corbett in the NW 1/4 Sec. 25-30-11W. The bond has never
been approved on this well and the Notice of Intention to
Drill was never approved. This is one of the wells which
Mr. Umbarger started without having a Notice of Intention
to Drill approved by this office. His operation was subse-
quently shut down but the C-101 was submitted showing
where they set surface pipe before stopping operations.
Due to the fact that the Notice of Intention to Drill had
not been approved I should not have approved the C-101 on
surface pipe.

The present status of the well is as shown on the C-101 and
Mr. Umbarger will not be allowed to continue this operation
until the bond is approved and the C-101 is approved. You
will find in your file on this well so that you will
know what the situation is.

Yours very truly,

Emery C. Arnold
Oil & Gas Inspector
