13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Bayless requests approval to utilize a 2" 2000 psi rubber hose between the BOP and the choke manifold while drilling this well. The rig being utilized is L&B SpeedDrill and has very limited room under the sub. This well is being drilled to the Fruitland Coal in an area of below normal pressures, and the hose would provide more than adequate safety precautions.

14. I hereby certify that the foregoing is true and correct

Signed Price M. Bayless
