13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Phillips submitted sundry to add DK to the approved APD on the SJ 32-8 Unit #15A (MV only). But we had to cancel drilling to the Dakota interval, because we couldn't get "Nonstandard Location Approval" for the Dakota. Therefore, please cancel the NOI sundry dated 3/13/01 to add DK and commingle. This will be a single zone MV well and the name will remain San Juan 32-8 Unit #15A.

Note: The sundry dated 3/13/01 was never approved by the BLM.
