**DETAILS OF WORK**

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The well was plugged and abandoned with cement from TD (100') to the surface. The abandoned well location site meets with Engineer Long's approval.

This report is for record purposes only. The drilling of this well was never approved and R. H. Long has left the country.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
