Mr. A. L. Porter, Jr.
Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

I request administrative exception as provided in Paragraph F of Rule 104, New Mexico Oil Conservation Commission Rules and Regulations, for my 1200 foot Dakota Test location in Section 3, Township 30 North, Range 17 West, San Juan County, New Mexico.

The location was originally staked at 1980 feet from the North Line and 660 feet from the West Line of Section 3. An on-the-ground inspection however, indicated that it would be prudent because of topographical conditions to move the location northward to a more favorable position.

Attached is a copy of the original plat, on which I have inserted the names of the offset Operators and a sketch of the topography, together with a copy of the corrected plat for this location.

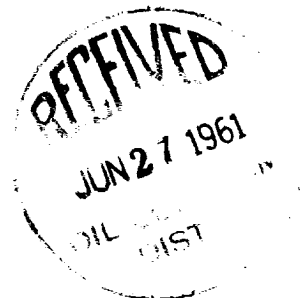

Therefore I request your approval for administrative exception for this location. Kindly advise me at P. O. Box 1527, Farmington, New Mexico.

Yours very truly,

Ken Blackford

Mr. J. E. Hester, Jr.
Secretary-Treasurer
New Mexico Oil Conservation Commission
P. O. Box 871
Albuquerque, New Mexico

Dear Mr. Hester:

I enclose administrative expense report provided in
Paragraph 7 of July 10, New Mexico Oil Conservation Commission
Order and Regulations, for the 1940-1941 season. This report is
Section 7, Article 20, Chapter 17, Laws of 1939, New Mexico,
New Mexico.

The location was originally stated in 1939 law from
the North line and 60 feet from the West line of Section 7. An
original location however, indicated that it would be
located in the center of the section. The location
indicated in the report is a more favorable location.

I enclose a copy of the original list, on which I
have indicated the value of the oil property and a sketch of
the property, together with a copy of the original list for
this location.

Therefore, I request your approval for administrative
expense for this location. Very truly yours,
Washington, New Mexico.

Yours very truly,

John H. Hester
