17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to excessive water production, we have not been able to produce the well. We intend to set a bridge plug @ 7810' to abandon all perforations below the plug. We will place 1 sack of cement on top of the plug thus leaving the upper perforations unrestricted.

Restoration operations to commence prior to 25 February 1983 or evidence submitted that well is capable of producing in paying quantities
