13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Section milled out 5-1/2" casing from 4018' to 4056'.
Cavitated the Fruitland Coal interval and ran 3-1/2" liner from 3951' to 4054'.
Perforated from 4023' to 4045', 4 SPF, 88 holes, 0.43" OD.

Returned well to production 9/29/99 after extended SI & cavitation.

See attached well bore schematic.
