If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Reference Vastar's sundry notice dated 07/19/00 and BLM's Stephen Mason's letter dated 10/24/00, re the subject well. After setting production equipment, the well was returned to production but was not capable of producing w/o artificial lift. Forest Service restrictions due to winter weather necessitate that the well be shut in until Spring 2001. Vastr plans to install artificial lift and return the well to production by July, 2001.
