Attention: Richard Corcoran**

Administrative Order NSL-4712

Dear Mr. Corcoran:

30-037-26950

Reference is made to the following: (i) your application dated February 15, 2002 (*application reference No. pKRV0-205137629*), which was received by the New Mexico Oil Conservation Division ("Division") in Santa Fe on February 19, 2002; and (ii) the Division's records in Santa Fe and Aztec: all concerning Energen Resources Corporation's request to drill its proposed Bullridge Well No. 100 at an off-pattern non-standard coal gas well location 1195 feet from the South line and 845 feet from the East line (Unit P) of Section 33, Township 32 North, Range 5 West, NMPM, Rio Arriba County, New Mexico.

The S/2 of Section 33 is to be dedicated to this well in order to form a standard 320-acre lay-down gas spacing and proration unit for the Basin-Fruitland Coal (Gas) Pool (71629).

By the authority granted me under the provisions of Rule 8 of the "*Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool*," as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

Lori Wrotenbery
Director
