(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to the extensive rains and the road crossing at Eul Canyon being washed away, we were unable to mobilize a rig to this location for testing. The well is currently in the wildlife wintering area. It is requested a long term shut-in until June 1, 1998 to complete the testing and evaluation.
