12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed)

Amoco Production Company attempted to sidetrack this well May 8, 1996. During sidetrack operations we encountered problems and decided to suspend operations. Amoco is now requesting approval to leave this well shut in until the first quarter of 1999 to give us an opportunity to evaluate this well for future uphole potential once the El Paso compression project is complete. Details of the sidetrack operations are as follows:
