Dear Mr. Rhodes:

We have your letter of March 29, 1966 requesting the re-scheduling for 1966 annual deliverability test of Pubco's State Com J #6 well located in Unit L, Section 36-31N-9W.

Before it would be possible for us to determine whether or not there is basis for a retest on this well it will be necessary that you submit a production summary for the last year indicating the average daily production of the well during the time it was producing.

Yours very truly

Mr. J. H. Brown
P.O. Box 150
Aztec, New Mexico

Dear Mr. Brown:

I have your letter of March 25, 1954 regarding the re-estimating
of 1953 oil production in the Rio Grande Valley. I am sorry that
I cannot give you a more definite answer at this time.

Before it is possible to give you a definite answer, it is necessary
that the 1953 oil production be re-estimated. This is necessary
because the 1953 oil production was based on the 1952 oil production
and the 1952 oil production was based on the 1951 oil production.
Therefore, the 1953 oil production must be re-estimated before
the 1954 oil production can be estimated.

Sincerely,
J. H. Brown

Very truly yours,
J. H. Brown
