RE: EPNG Walker Com No. 2 (B1 MV)
4-3-2-1

Dear Mr. Arnold:

The above captioned well was worked over in 1966 and was first delivered June 10. An Annual Deliverability test was completed September 13, 1966 with a State Deliverability of 753. Since that time a free piston lift system was installed which greatly helped the production from the well. We are submitting herewith an annual type deliverability test asking that it be accepted as an Initial and Annual test following workover.

If there are any questions regarding this matter please contact me.

H. L. Kendrick
