Re: Our Government-Payne #1-35
SW/4 Section 35, 31N, 13W,
SF 078464

Dear Mr. McGrath:

Subject well has been completed as a Dakota Gas producer and is now awaiting hookup to the Southern Union System. Enclosed under cover of this letter are the following filings:

- (1) Three copies of Supplemental Well History reported on Form 9-331 a (2 copies of this form are being supplied the New Mexico Conservation Commission in Aztec, New Mexico).
- (2) Three copies of Form 9-330. (2 copies of this form are being supplied the New Mexico Conservation Commission in Aztec, N. M.)
- (3) Three copies of a form summarizing the results of the conventional New Mexico One-point Potential Test, including a figure for actual flow volume at the end of three hours through a 3/4" positive choke. The well had been shut in nine days prior to this test. (2 copies of this form are being supplied the New Mexico Conservation Commission in Aztec).
- (4) Two copies each of the Induction Electrical Log and Radioactivity Log by Schlumberger and McCullough respectively. (one copy of each of these is being supplied the N. M. Conservation Commission at Aztec.)
