proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

At your request (attached) ARCO Oil and Gas Company plans to plug and abandon the HGU #190. We are, however, requesting a 120 day extension to your March 2 deadline so that a thorough reservoir evaluation can be completed along with co-owner approval. In addition, this extension will allow the work to be done during better weather.

A proposed plugging procedure is included for your review and approval. Once plugging is complete, reseeding will be completed per BLM standards.
