WATER SHUT-OFF ☐FRACTURE TREATMENT ☐SHOOTING OR ACIDIZING ☐(Other) ☐REPAIRING WELL ☐ALTERING CASING ☐ABANDONMENT* ☐

Shut in

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was completed June 1959. The well was non-commercial and shut in for future waterflood operations. The well was tested in 1962, and still failed to produce a commercial amount of oil. The well has been tested occasionally since 1962, however, there has been no response to the waterflood operations.

The well is in a large Unit now under waterflood operations. Future plans are to conduct waterflood and tertiary recovery studies. These studies may result in a revised waterflood plan or in a tertiary recovery program that may require the use of this well in order to recover the maximum amount of oil from the Gallup formation reservoir.

TEMPORARY ABANDONMENT
EXPIRES JUN 1 1977

2cc: New Mexico Oil Conservation Commission.

18. I hereby certify that the foregoing is true and correct
