Attn: Mary C. O'Brien

Dear Madam:

Thank you for your letter of May 18, 1966 with enclosures for your Navajo Cone #1 well. We have in our file an Application for Permit to Drill for a well with the same name located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 27 Township 31 North Range 18 West which was never drilled. However we have determined that the well located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27 was filed as an amended location to the one mentioned above. Our file is therefore complete on the Navajo Cone #1 well and we hope that our error has not caused you too much inconvenience.

Yours very truly

Emery C. Arnold
Supervisor, District #3
