Re: Delta Oil Co. #1 Delta  
SW $\frac{1}{4}$  Section 30-31N-13E

Gentlemen:

Copies of Federal Notice of Intention to Drill were received in this office from the U.S.G.S. June 20, 1958. No further information has been received in this office. We have learned through conversation with the U.S.G.S. that the well was drilled to a total depth of 3405 feet and was temporarily abandoned June 14, 1959. Nothing indicates that the well has been properly plugged and abandoned as required by our rules.

Will you please file miscellaneous notices indicating what operations were carried out on this well immediately. You should also immediately secure approval of plugging plans from the U.S.G. Office in Farmington. Five copies of Federal well record form should also be submitted immediately to the U.S.G.S. office in order that we may close our records on this well.

Yours very truly

Emery C. Cold  
Supervisor District #3
