DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We would like to defer permanent abandonment until completing the geological and engineering studies currently in progress.

Ute Mountain 2-25-3 is still safely cased and controlled, and is periodically checked by field personnel. No hazard will be created by deferring abandonment.

We request approval to leave the well temporarily abandoned.
